

WADSWORTH WILL NEED THE "BUNCH OF KIND WORDS"

Hughes Hands Them to the Speaker and They May Help in Gubernatorial Battle.

BUT HE'S HANDICAPPED.

"Has Woodruff Brand" Is Not the Only Charge His Enemies Are Making.

Should Have a Staff Correspondent of the

ALBANY, April 10.—The fiscal of kind words handed out by Gov. Hughes to young "Jimmie" Wadsworth and his fellow Assemblymen will form quite an effective campaign document when the spring of the Genesee Valley starts after the nomination for Governor. In patting young "Jimmie" on the back for his railroadings of the Anti-Race Track bills, which incidentally takes away some of the prestige of the elder Wadsworth, the Governor provided the boy statesman with a good club with which to go after delegates.

Just how much the endorsement will be worth remains to be seen, because Wadsworth is likely to meet with a great deal of opposition from the fellows who control the next State convention. Wearing the Woodruff brand, he will labor under a great disadvantage. The old-time leaders who are after the scalp of the doughty State Chairman—and will sooner or later get it—do not view "Jimmie" with favor.

They present many reasons why he should not be nominated. A few of them are: That he is too young and should grow up; that he "will not take a chance" for the organization; that he has made a bad break by butting into the factional row in New York County to help out "Dear Herbert" Parsons; that he has alienated the leaders who made him Speaker, like George W. Aldridge; and that he has been playing too much personal politics.

The last charge is the most serious. Ever since he has been Speaker "Jimmie" has been shouting about his college career and playing "side-pocket shots" so as to be on the safe side. He has not taken a chance. At the first sign of trouble he has taken to the woods and lugged off some kindergarten cabinet along with him.

Whenever there has been a cloud that portended a criticism, he has gracefully sidestepped and passed it up to the honorable Senate.

The race track people, with whom his father is on very friendly terms, in addition to being a racing commissioner, depended on "Jimmie" to help them out; but he sidestepped and let them look out for themselves. Even his esteemed parent couldn't get him to stand

by, and the result is that some of the gentleman sportsmen whose business he is to be affected by the race-track bills are a trifle sore at the young leader and aspirant for gubernatorial honors.

Wilcox Has Admirable Nerve, but People Have to Suffer.

State Senator Benjamin Martin Wilcox possesses one quality that you would admire in any man. It is "nerve." He is not a pyrotechnical orator and rarely opens his mouth on the floor of the Senate, though he can make a first rate speech when he wants. Most of his verbal offerings are of the "saw" or "hot" order. And he seldom rises, like most nervous statesmen, to offer an explanation of his vote that don't explain. His action on the Five-Cent Fare bill and race track measure is proof of it.

Now the B. R. T. and its political friends do not want the Five-Cent Fare bill to pass. The bill passed the Assembly with not a single dissenting vote. Did it pass the Senate? No, it did not. And if the Hon. Wilcox can arrange it, said bill will die of inanition in the Committee on Railways, of which Wilcox is chairman. He has been chairman of it for a long time, because he is a most useful man—to the railroads.

When the committee met yesterday Wilcox put off the demand for a report on the bill made by "The" McManus, by saying that Col. Williams, of the B. R. T., wanted a hearing on the bill. Inasmuch as Col. Williams has had something like seven hearings on the proposition Wilcox's excuse didn't appear reasonable. But he had the majority of his fellow-committeemen properly trained, and Col. Williams will have another hearing next week—and the week after, if he desires. Another example of Wilcox's nerve was his coming back to the State from the West on the eve of the final battle over the race-track bills, and he turned up with the exhibition of his peculiar kind of courage by announcing he was going to vote against the bills. And, further than that, he volunteered no explanation.

Thompson Forgot to Ask McCarren's Orders for Just One Vote.

Senator Thompson, of the McCarren string, is, or was, a pioneer before he went into politics. He is as big as Jeffries, blond-haired and extremely discreet. He rarely, if ever, makes a speech beyond answering to his name. He is chiefly distinguished as the most loyal McCarren man in the Upper House. He was never known to break away from the Brooklyn boss but once. That was last week.

A bit later one of the up-State Senators was interested in was up. The author asked Thompson for his vote. The latter assented and voted for it.

McCarren was on the other side. The entire Senate sat up and took notice at the desertion of McCarren by Thompson, and the big fellow actually blushed.

"What will McCarren do to you?" asked Jim Frawley, of Thompson.

"Nothing," replied the latter. "He told me I was right in keeping my promise. If he had asked me to change I shouldn't have done it. He knows I'm with him ninety-nine times in a hundred."

"Form Sheet" for the Senate Figured Out During Race Bill Fight.

While the honorable the Senate was plugging away at the race-track bills on Wednesday the crowd of short-hairs out in the lobby indulged in a discussion and description of what was going on inside. It was couched in professional parlance that a layman could not understand. Here is a "form sheet" that one of the horsey gentlemen produced.

Capitol course.
Track slippery.
Gratin—One best bet.
Wilcox—Good in the mud.
Cassidy—Watch this one.
Glasgow—A little lame.
Ting Pat—A good finisher.
Emerson—Needs a battery.

Good milk is a body builder. But if it isn't pure and safe look out! Health, even life itself, is at stake. Drink milk, but drink the PERFECTLY pasteurized, absolutely safe milk.

SHEFFIELD PERFECTLY PASTEURIZED MILK

20% richer than average milk and insured against contamination by a pasteurizing process MORE perfect than that specified as United States Government Standard.

WM. VOGEL & SON

We Occupy a Unique Position With Our \$15 Spring Overcoats and Suits.

EACH stage in the making of our \$15 Spring Suits and Overcoats, from the buying of the cloth to the finished product, progresses under conditions which are modern as the day. Our own organization of master tailors know how to put into a garment that subtle style and distinctiveness that seldom, if ever, finds expression in garments so moderately priced. It is this phase which forms the real value of our \$15 Spring Suits and Overcoats—which lifts them above the plane of common place, ready-made clothes. Prove it, if you will, by coming here and trying on some of our \$15 garments.

AMERICAN PEOPLE DRINKING SEWAGE

Appeal to President for Federal Aid to Save 35,000 Lives a Year.

WASHINGTON, April 10.—"Water poisoning," as he terms the almost universal practice of dumping raw sewage into the streams of the country, will be made a national issue if President Roosevelt acts upon the suggestion of Edward Hatch, Jr., of New York, made in a letter today delivered to the Executive.

Mr. Hatch is chairman of the New York Merchants' Association Pollution Committee, which is conducting a vigorous campaign against the defilement of State waters, and of the Hudson River and New York bay in particular, by existing and proposed systems of drainage—two of which latter, the Bronx valley and the Passaic valley trunk sewers, the one in New York, the other in New Jersey, would eventually discharge 500,000,000 gallons of filth into New York harbor every twenty-four hours.

Greenhut and Company

Dry Goods

Every one who sees these garments will recognize their "different," distinctive character and style. They are the products of specialists—and we did our own picking. Made our own prices, too—so that style and economy are passed along direct to our public.

This isn't half the story:

6th Avenue, 18th to 19th Street

DETECTIVES HUNT FOR "FRENCH MAX"

He and Three Others Indicted as Result of Gambling House Exposure.

County Detective Reardon, with warrants for four men who were indicted

by the Grand Jury yesterday as the result of "The World's" gambling exposure, was in the Tenderloin last night seeking prisoners. The most important of the men from the police standpoint is Louis Marx, better known as "French Max," whose resort was a collecting point for the gamblers and members of the police department whom they paid for "protection."

Marx was the reputed proprietor of the "French Club," in West Twenty-sixth street near Sixth avenue, which was raided on Jan. 3 last. A roulette wheel and other gambling paraphernalia were confiscated.

Reardon's presence in the Tenderloin last night was quickly bruited about and there was a noticeable scarcity of gamblers in their usual haunts. The men for whom Reardon was hunting kept out of sight.

DR. GREENE'S HEALTH LECTURES

Thousands of human physical and nervous wrecks restored. The fundamental principles of longevity; Proper diet and hygienic measures as promulgated and proclaimed publicly for twenty-five years.

Dr. Greene, not only recognized as the most successful Specialist in Nervous and Chronic Diseases, is the originator and proprietor of the renowned Nerve and Blood Food.
